Pharmaceutical Production

European Manufacturers

+420 739 431 144
ac@forlabtrade.cz
<https://forlabtrade.cz>

Your European partner for equipping all types of laboratories.

We offer:

- 1.5 million items of raw materials and equipment from 40 European manufacturers;
- Export of chemical reagents from Europe, to Central, South, and Middle Asia.
- Assistance in finding specific products or alternatives at beneficial terms;
- Delivery tracking;
- Product licensing;
- Customized service tailored to your requests. If you need help selecting reagents or equipment by code or finding alternatives, we will do it for you and compile a list of potential suppliers.

For Lab Trade s.r.o. provides reagents and consumables for pharmaceutical, food, and medical developments from companies such as Merck, VWR, Hach Lange, AppliChem, Lachner, and others.

Research

Filter plates for protein and cell work, and their accessories

Name of product	Cod of product
Bovine Serum Albumin cold ethanol fraction, pH 5.2, ≥96%	A4503
γ-Globulins from bovine blood ≥97% (agarose gel electrophoresis)	G7516
MultiScreen Deep, 96 Well Solvinert Opaque, Non-Sterile, 0.45 μm pore size, Hydrophilic Polytetrafluoroethylene (PTFE), 10 plates, volume 1.9mL	MDRLN0410
MultiScreen IP Filter Plate, 0.45 μm, clear, non-sterile This clear 96 well filter plate has a Hydrophobic PVDF membrane used for PAMPA.	MAIPNTR10

Life science

- Antibodies
- Cell cultures
- Functional genomics and gene studies
- Pharmaceuticals
- Western blotting
- Laboratory equipment and materials
- Antibiotics
- Muscle diagnostics

Chemical Products and Research Services

We offer a wide range of products for high-throughput screening, including high-purity compounds specially selected to maximize chemical diversity while maintaining drug-like properties.

Name of product	
MyriaScreen – Library	AldrichCPR
Small Bioactive Molecule Portfolio	Aldrich Market Select
Cell Cultures	
Cells and Assay Kits	
Automation	
Antibodies	
Biology	

In Vitro Safety Systems – ADME, DMPK, Tox

- Permeability and transport studies
- Metabolic studies
- Toxicology studies
- 3D cell culture innovations
- SOLVO biotechnology

Water Purification Systems

Name of product	Manufacture
Milli-Q® IQ 7003/05/10/15 From tap water to ultrapure	Merck
Barnstead™ Smart2Pure™ Water Purification System	Thermo Scientific
Milli-Q® IQ 7000 From tap water to pure	Merck
Milli-Q® HR 7000 Connected Central Systems From tap water to pure	Merck
SDS 500: Stores, Protects & Distributes Your Water Storage, protection, and distribution	Merck
Milli-Q® IX 7003/05/10/15 or From tap water to pure	Merck

Product Characterization, Method Development, and Analytical Quality Control

Sampling

Name of product	Manufacture
Pipette Tips	BRAND, Biohit, Fintip, Eppendorf и др.
Automatic Pipettes	BRAND, Hirschmann, Pyrex, Volac и др.
Cultivation Well Plates	BRAND, Аxygen и др.
Centrifuge Tubes	Plastibrand, Eppendofr
Vials in a Wide Range of Options	

HPLC, LC-MS Columns

Name of product	Cod of product
Aldrich® TLC developing tank - cylindrical	Z243906
Ascentis® C8 HPLC Column	581442-U
Vacuum filtration assembly flasks	Z290610
Astec® CHIROBIOTIC® T Chiral HPLC Column	12024AST
Discovery® C18 HPLC Column	504971

Solvents for HPLC, LC-MS

Name of product	Cod of product	Packaging
Acetonitrile	100029.1000 100029.2500 100029.9010 100029.9030	1 L GL 2.5 L GL 10 L ST** 30 L ST**
Methanol	106035.1000 106035.2500	1 L GL 2.5 L GL
Ethyl acetate	10 3649.1000 103649.2500	1 L GL 2.5 L GL
Hexane	103701.1000 103701.2500	1 L GL 2.5 L GL
2-Propanol	102781.1000 102781.2500 102781.4000	1 L GL 2.5 L GL 4 L GL*
Acetonitrile + 0.1% Acetic acid (v/v)	159004.2500 159004.4000	2.5 L GL 4 L GL*

LC-MS Reagents

Name of product	Cod of product
Ammonium acetate suitable for mass spectrometry (MS), LiChropur™, eluent additive for LC-MS	73594
Dihexylammonium acetate solution 0.5 M in H ₂ O, suitable for ion pair chromatography, LiChropur™	93645
Formic acid for LC-MS LiChropur™, 97.5-98.5% (T)	00940
Trifluoroacetic acid eluent additive for LC-MS, LiChropur, ≥99.0% (GC)	80457
2,2,2-Trifluoroethanol suitable for mass spectrometry (MS), LiChropur™, ≥99.8% (GC)	18370

Gas Chromatography

A complete range of columns for capillary GC and GC-MS, including ion liquid columns, MS-grade columns, fast GC, GCGC, chiral columns, and PLOT columns. We offer the most comprehensive line of packed columns and GC components (empty columns, packings, supports, and stationary phases). We also provide a full range of test mixtures for columns, GC accessories (including molded GC septa, deactivated inlet liners, syringes, and vials), high-purity solvents, and products for gas purification/management (including purifiers, tubing, fittings, pressure regulators, and gas generators), and adsorbents.

Thin Layer Chromatography (TLC)

We offer a full range of products for thin layer chromatography (TLC), high-performance TLC (HPTLC), and preparative TLC, including plates, reagents, and accessories.

Name of product	Manufacture
TLC Plates	Merck
Variety of Adsorbents	Merck
MS-grade TLC and HPTLC Plates for Mass Spectrometry	Merck
HPTLC	Merck
TLC Separation Chamber for 2 Simultaneous Separations, 10 x 10 cm Plates	Applichem, Macherey-Nagel
TLC Precoated Plates SIL G-50, Size: 20x20 cm	Applichem, Macherey-Nagel

Titration, Karl Fischer

Name of product	Manufacture
Titripur® Volumetric Solutions	Merck
Aquastar® Karl Fischer Reagents	Merck
Aquastar® Karl Fischer Water Standards	Merck
Titrisol® Volumetric Concentrates	Merck
AQUAMETRIC Solvent for Karl Fischer Volumetric Analysis	Applichem
AQUAMETRIC Working Medium for Karl Fischer Volumetric Analysis	Applichem

Analytical Standards and Certified Reference Materials

- Primary Standards: USP, EP, BP
- Secondary Standards
- Impurity Standards
- Extractables and Leachables
- Inorganic Element Impurities
- Microbiological Standards
- Phytochemicals

Filtration Systems

- Filter Disks and Membranes
- Nonsterile Millex® Syringe Filters
- MultiScreen® Filter Plates
- Concentration and Ultrafiltration Filters for Proteins
- Sterile Millex® Syringe Filters for Cells
- Stericup® Filtration Systems

Mass Spectrometry

We offer a wide range of products, including ProteoMass MALDI calibration kits, MALDI calibration solutions, MALDI matrices, protease profiling and guanidination kits, trypsin-based products, and much more.

Solid-Phase Microextraction (SPME)

Name of product	Manufacture
SPME Autosampler	Merck
Supel™ BioSPME 96-Pin Device for SPME	Merck
Supelco® Nitinol-Core Fiber for SPME	Merck
TE Cartridges	Merck

Microbiological Quality Control

- Sterility Tests
- Bioburden Testing
- Pyrogen and Endotoxin Testing
- Microbiotic Standards
- Mycoplasma and Virus Testing
- Environmental Monitoring
- Method Development Services

Cell culture and substance synthesis services are available upon request. We ensure the reliable supply of critical raw materials essential to the continuity of your business. As your preferred provider of innovative solutions from discovery through clinical stages to commercial supply, we can support you at all stages of the molecule's lifecycle.

This brochure provides a brief overview of our product range.

For more detailed information about our company, please visit our website.

You can entrust us with your procurement needs and any related questions – we provide support at every stage of cooperation.
